1905 Twelfth Annual Report

# City of Laconia

Year Ending February 15

1905

1905

# TWELFTH ANNUAL REPORT

OF THE

RECEIPTS AND EXPENDITURES

OF THE

# CITY OF LACONIA

NEW HAMPSHIRE

FOR THE

YEAR ENDING FEBRUARY 15, 1905,

TOGETHER WITH OTHER ANNUAL REPORTS AND PAPERS  
RELATING TO THE AFFAIRS OF THE CITY.

Laconia Press Association, Printers

## ORGANIZATION OF CITY GOVERNMENT.

---

TUESDAY, March 22, 1904.

At ten o'clock in the forenoon of the above date, the members elect of the city council for the municipal year of 1904, and the hold-over members from the previous city council met for organization agreeably to the provisions of the city charter.

The oath of office was administered to the mayor elect, Woodbury L. Melcher, by Judge George H. Everett, police justice.

The mayor administered the oath of office to the following councilmen elect, to wit:

Ward 1—Caleb J. Avery.

Ward 2—William Wallace.

Ward 3—Amos J. Dinsmoor.

Ward 4—Frank H. Lougee.

Ward 5—Samuel D. McGloughlin.

Ward 6—Clarence W. Plummer,

William Nelson.

Prayer was offered by Rev. S. C. Spalding after which the mayor delivered his inaugural address.

# INAUGURAL ADDRESS

OF HON. WOODBURY L. MELCHER, MARCH 22, 1904.

---

*Gentlemen of the Council:*

The charter of our city, Sec. 4, provides as follows:—  
“The administration of all the fiscal, prudential and municipal affairs of said city shall be vested in one principal officer to be called the mayor, and in one board consisting of fourteen members to be called the council. The mayor and council shall sit and act together, and comprise one body, and in their joint capacity shall be denominated the city council.”

The charter and the laws of the state and city provide for various executive officers and departments, and define their duties. The successful administration of the affairs of the city depends largely upon the harmonious action of all, but the ultimate responsibility rests upon the city council. This provision is a wise one, for no government could otherwise be a success. Let us then enter upon our duties fully realizing this responsibility, remembering that the utmost vigilance is demanded of us, so that if failure, neglect, incompetency or wrong doing anywhere appears it shall be immediately detected and corrected.

Immediately after the completion of your organization, the always important matter of the annual appropriation will be in order. You will have before you the recommendations of the finance committee of last year, and while they are in no way binding on you, yet coming from those who have been the most familiar with the city's finances, and its future needs, will be worthy of your serious consideration.

All of the departments appear to have been managed

prudently and successfully during the past year. Their reports will be before you, showing fully what they have accomplished, and defining their future needs. I do not deem it necessary for me to go over them in detail but I urge upon you their careful consideration, only reminding you that whilst prudence and economy are essential in all our expenses, yet very often parsimony and niggardliness are neither prudent nor economical. All the departments are important, each in its sphere, and true economy requires that they all be provided with sufficient means to do effective work. And when the tax-payers see the necessity, and realize that good work is being done they will cheerfully bear the burden.

I deem it my duty to call your attention to the largely increased expense of caring for persons committed to the county house of correction for drunkenness by our police court, it having jumped from \$150.54 in 1902 to \$573.62 in 1903, occasioned by the large increase in the number of commitments. The whole number sent up in 1903 was 120, 89 of this number were for non-payment of fines and costs, which means a sentence of from 12 to 24 days. The balance were for varying times from thirty days to six months. Judging from these figures, and from the commitments since January 1st, the number for a full year under the license law would not vary much from 175, which under the system of charges now prevailing would mean a considerably further increased expense to the city. The law requires that all persons committed to a house of correction by a police court shall be sentenced to hard labor for the term of their confinement, that the commissioners shall direct as to the character and kind of labor to be performed, and the place of performance, that the superintendent shall keep them employed in such labor as they are able to perform. The city is chargeable only for the expenses of those unable to labor. Of the 120 sent up 100 of them have been reported as unable to work, or at least to earn their board, consequently the city has been

held chargeable. In fact, the county has virtually charged us for the board of all of those sent up for less than thirty days, on the ground, as alleged, that their labor was of no value. This may in a measure be true when no work is provided, as has generally been the case, except the ordinary farm and house work. The commissioners have ample authority to seek work elsewhere. It has seemed to me that the changed conditions demand new measures, and it is the imperative duty of the commissioners to seek employment elsewhere, whenever it cannot be obtained at the farm. Therefore I have notified them, that hereafter the city will insist on sufficient evidence of unfitness to labor before the bill will be allowed. It is better for the inmates, better for the county, better for the city that employment should be found for all who are fit to work. I admit it is a difficult problem to handle, that there are many discouraging circumstances to contend with in dealing with such a class of laborers. But when the county receives one-half of all the license fees collected therein, it is not only its duty, but it can well afford to grapple with it. It has often been suggested that the city could aid in this matter at times by furnishing employment in connection with labor upon our highways. Whilst this matter of employment is entirely in the hands of the commissioners, I do not doubt they would gladly coöperate with us in any such measure as might be deemed feasible. I urgently urge you to give this matter the consideration which its importance demands.

The suggestion of the city marshal that inasmuch as the county receives so large a percentage of the license fees the law should be so changed as to require it to care for, at the county's expense, all persons committed to the house of correction, who have gained no legal residence in the city. The suggestion seems timely and reasonable. But as this is a matter of state legislation upon which we cannot directly act, and as it does not strike directly at the root of the evil—the keeping of the inmates of our house

of correction in idleness—we should not delay any reasonable immediate effect.

I fully concur in the recommendation of the board of health that the city purchase a suitable lot with buildings thereon, or upon which buildings may be erected, for a quarantine hospital. At the outset of our recent epidemic the state board of health urgently insisted that such a building should be provided at once, otherwise we might not be able to cope with the spread of the disease. Fortunately the comparative isolation of the dwellings in which it was first discovered, together with the prompt and rigorous measures taken by the local board, and by Dr. Letourneau, the physician in charge, prevented its spread. But the expense even then was much larger than it would have been if the city had been prepared with a suitable hospital. The more recent outbreak, fortunately of a mild type, was much more scattered and consequently more expensive to care for. Should an extensive outbreak occur, to which we are at any time liable, we should very soon save the cost of such a building, provided we had it in readiness. I would recommend that the finance committee be instructed and fully empowered to purchase such a building or lot as soon as a suitable one can be found. Perhaps a grade lot at the south end of the city, such as is desired by the highway department could be combined with a hospital lot, and so accomplish a double purpose.

The contract with the Laconia Electric Lighting Company expires April first. The committee of the last council, believing that the matter of a new contract should be left to the incoming council although fully empowered, have made no progress. They have, however, arranged for a continuance of the old contract temporarily. This is one of our large expenses, and of importance to the welfare convenience and safety of all our people, and should be considered with care and deliberation.

I do not propose to burden you with an array of figures

relative to our financial condition, which you would not remember, and which is fully and plainly set forth in our annual report. The consideration of provisions for the adjustment or payment of our debt need not trouble you. The law already provides for the payment of \$2000 of our funded debt, \$1000 of Ward 6 coupon notes, and \$5000 of our school-house debt annually, which is all the tax payers should be called on to pay at present. The credit of the city is of the best. The treasurer has been able to obtain from our own citizens ordinarily all the money desired at three per cent. annual interest. Whilst this state of affairs continues no action is needed relative to caring for our floating debt except to prevent its increase as far as possible.

I have thus briefly called your attention to such matters as I deem of especial importance which will come before you. Others of more or less importance will from time to time demand your attention. I earnestly pray that no such serious disaster as early confronted us last year, or as overtook us later will confront you. While we did not during the past year realize all our hopes, nor even accomplish all our desires, yet we have much to be thankful for, in that no lives were lost in the terribly destructive conflagration of May 26th, in that our own people, our neighbors, and more distant friends so nobly and generously responded to our needs by contributions of clothing, supplies of all kinds and money, thus alleviating much suffering and distress, and again in that a loathsome and dreaded disease appearing among us, it was kept within control, and again no lives were lost.

Let us then enter upon this new year, having confidence in each other, faith in human nature, and implicit reliance in that benign Providence, which in the end over-rules all things for good.

•

# MUNICIPAL REGULATIONS,

FOR PAYMENT OF BILLS AGAINST THE CITY.

---

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the committee on accounts and claims, and no order will be given for its payment. When bills are certified to as above, and left with the city clerk not later than Thursday, at 12 o'clock M., preceding the last Monday of each month, they will be audited by the committee on accounts and claims, and if approved by them and allowed by the council, will be ready for payment on the following Wednesday, at the office of the city treasurer.

Meetings of the committee on accounts and claims are held on the Friday preceding the last Monday of each month, at 7.30 o'clock P. M., at the city clerk's office.

# CITY GOVERNMENT,

LACONIA, N. H.

Inaugurated fourth Tuesday in March, yearly. Stated meetings: The last Monday of each month, at 7.30 o'clock, P. M., at council room, Masonic Temple, Main street.

---

ORDINANCE, ORDERS AND  
RESOLUTIONS

## ORDINANCE.

---

AN ORDINANCE in amendment of an ordinance approved May 3, 1897, entitled "An ordinance in amendment of an ordinance in relation to the fire department."

*Be it ordained by the City Council of the City of Laconia, as follows:*

SECTION 1. That section 1 of An Ordinance, entitled "An Ordinance in amendment of An Ordinance in relation to the Fire Department," approved May 3, 1897, be amended by striking out the word "three" in the fifth line of section one as printed in the city report for the year 1897, and inserting in place thereof the word "four," so that said section as amended shall read as follows:

The fire department shall consist of a chief engineer, four assistant engineers, and as many enginemen, hose-men, and hook and ladder men, to be divided into companies, as the number of engines and the number and quantity of other fire apparatus belonging to the city shall from time to time require.

And said engineers shall constitute the board of engineers, and shall perform the duties and exercise the power of fire wards.

The chief engineer, or either of his assistants, shall in no case be eligible to any other office or membership in the fire department.

Passed and approved May 2nd, 1904.

## ORDERS.

---

AN ORDER directing the Board of Public Works to use the flush tanks as originally intended in the flushing of the public sewers.

ORDERED, That the Board of Public Works cause the flush tanks on the line of the public sewers to be used for flushing purposes, as originally intended and used, in numbers not less than fifty, payment for water for such purposes having been provided for in the contract made by the city with the Laconia Water Company executed October 28, 1903.

Passed and approved Feb. 29, 1904.

---

AN ORDER for a survey and plan of sewerage at The Weirs.

ORDERED, That the city engineer make surveys and prepare plans and profiles for a sewerage system at The Weirs and present the same to the city council for consideration.

Said plans to provide for a sewerage disposal either by broad irrigation, intermittent filtration or some other approved method recommended by the city engineer, but not by discharging said sewerage into Lake Winnepesaukee.

Passed and approved Jan. 30, 1905.

## RESOLUTIONS.

---

A RESOLUTION authorizing the city treasurer to hire money.

*Resolved by the City Council of the City of Laconia, as follows:*

That the city treasurer be and hereby is authorized to hire on the credit of the city a sum of money not exceeding forty thousand dollars in such sums and at such times as may be required for the payments of outstanding claims as they may be incurred, in anticipation of taxes.

Passed and approved March 28th, 1904.

---

A RESOLUTION raising money and making appropriations for the year ending February 15th, 1905.

*Resolved by the City Council of the City of Laconia, as follows:*

That the sum of ninety-seven thousand dollars be raised for the use of the city for the year ending February 15th, 1905, by tax on the polls and estates liable to be taxed therein, which together with such unappropriated money as may now be in the treasury or may hereafter come into it, shall be appropriated as follows, which appropriations shall be in full for all expenditures in each department named:

State tax . . . . .	\$ 6,159.00
County tax . . . . .	13,363.00
Schools . . . . .	23,000.00
Highways and bridges . . . . .	13,000.00
Concreting sidewalks . . . . .	1,000.00
Relocating street lines, and grading in burnt district, Ward six . . . . .	1,000.00
Sewer maintenance . . . . .	1,100.00

City engineering . . . . .	\$ 400.00
Street lighting . . . . .	7,000.00
Hydrant service . . . . .	2,400.00
Fire department . . . . .	5,000.00
"        "        fire alarm at Weirs . . . . .	300.00
"        "        new hose . . . . .	750.00
Police department . . . . .	4,500.00

---

\$111,854.25

Passed and approved May 2, 1904.

A RESOLUTION appropriating two thousand dollars for the purchasing and furnishings of an isolation hospital.

*Resolved by the City Council of the City of Laconia, as follows:*

That the sum of two thousand dollars be appropriated for the purchase and furnishings of an isolation hospital, said purchase and furnishing to be done by the committee on finance and the secretary of the board of health, and the mayor is hereby authorized to draw his warrant in the payment of the same.

Passed and approved May 31, 1904.

---

A RESOLUTION appropriating the sum of fifty dollars, (\$50.00) and authorizing the board of public works to build a sanitary sewer on Depot street.

*Resolved by the City Council of the City of Laconia, as follows:*

That the board of public works are hereby authorized and instructed to build a suitable sanitary sewer on Depot street to extend from a point opposite the People's church, so called, to connect with the sewer on Pleasant street.

That the sum of fifty dollars, (\$50.00) is hereby appropriated to be used for this work together with such other money now in the hands of the city treasurer previously appropriated for sewer construction.

Passed and approved July 25, 1904.

---

A RESOLUTION appropriating a sum not to exceed three hundred dollars, (\$300.00) for the purpose of building a stone culvert on Joliett street.

*Resolved by the City Council of the City of Laconia, as follows:*

That a sum not to exceed three hundred dollars, (\$300.00) be and hereby is appropriated for the building of a stone culvert on Joliett street, and that the mayor be authorized to draw his warrant for the same from any monies not otherwise appropriated. ■

Passed and approved Aug. 29, 1904.

A RESOLUTION authorizing the board of health to procure legal advice.

*Resolved by the City Council of the City of Laconia, as follows:*

That the board of health be and hereby are authorized to procure such legal advice for the proper performance of their duties as they may deem necessary, at an expense not exceeding fifty dollars (\$50.00), provided that the city solicitor is unable for any reason to act for said city in the case of the City of Laconia vs. Mrs. Harriett Clow.

Passed and approved Sept. 26, 1904.

---

A RESOLUTION appropriating money for the widening of Church street on land owned by William Esty.

*Resolved by the City Council of the City of Laconia, as follows:*

That the sum of three hundred and twelve dollars (\$312.00), be and hereby is appropriated to be expended by the board of public works in widening and straightening Church street over land owned by William Esty, constructing retaining walls and doing the necessary grading and filling occasioned by the widening of said street as proposed by said William Esty, provided said Esty executes a deed in favor of the city, for the consideration of one dollar (\$1.00) for land taken by the city in said widening and straightening of said street.

Passed and approved Sept. 26, 1904.

---

A RESOLUTION to accept the bequest of Leavitt Park, and other bequests contained in the will of Thomas L. Leavitt, late of Laconia, deceased.

*Resolved by the City Council of the City of Laconia, as follows:*

That the City of Laconia accept the Leavitt Park, so called, in Lakeport, so called, in said Laconia, bequeathed to it by the late Thomas L. Leavitt, of said Laconia, by his will dated May 20, 1897, under the terms and conditions contained in Sec. 7, of said will; that the City of Laconia also accept his homestead place and lands connected

therewith, and the income of all the rest, residue and remainder of the property of the late Thomas L. Leavitt, as devised and bequeathed to it under Sec. 10 of the will of the said Thomas L. Leavitt, and subject to the conditions therein contained.

Section 7 of said will is as follows:

I give and devise to the City of Laconia, in the County of Belknap, and State of New Hampshire, a certain tract or parcel of land situate in said Laconia, and conveyed to me by Horace G. Whittier et ux by deed dated March 31, 1884, and recorded in Belknap county records, book 72, page 147, the said City of Laconia to have and to hold the same for a public park and for no other purpose or purposes, and to name it Leavitt Park.

Section 10 of said will is as follows:

I give, bequeath and devise to the City of Laconia, in the County of Belknap, and State of New Hampshire, after the decease of myself and my sister, Mary Jane Leavitt, my homestead place with the buildings thereon conveyed to me by Comfort Merrill et ux, by deed dated December 9, 1876, containing one acre, eleven and one-half rods, and recorded in Belknap county records, book 71, page 573, and one other tract or parcel of land conveyed to me by Sarah M. Jackson et al, by deed dated Sept. 23, 1878, and recorded in Belknap county records, book 64, page 184, being the first tract only mentioned in said deed and containing one acre more or less, the said City of Laconia to have and to hold the same for a public park, and for no other purpose or purposes, and to be used in connection with that tract or parcel of land mentioned and described in article seventh of this will, and to be named Leavitt Park; I also give and bequeath to the said City of Laconia, all of the income from the rest, residue and remainder of my property, real, personal and mixed not otherwise disposed of, the said City of Laconia to use all of said income for the improvement and maintenance of said park.

Passed and approved Dec. 26, 1904.

## REPORT OF THE LIBRARIAN.

*To the Honorable Board of Trustees of the Laconia Public Library,*

GENTLEMEN:—I have the honor to submit to you my second annual report as librarian of the Laconia public library for the year ending December 31, 1904.

Owing to lack of funds, only 210 new books were purchased. Very few of the many greatly needed reference books could be bought. The calls for up-to-date books in science, sociology, useful and fine arts, history, biography, or travel could not be satisfied. While the librarian has endeavored to carry out your instructions to provide, first of all, the popular books, he has been unable to satisfy the public demand. The circulation has probably been less than two-thirds what it would have been if new books could have been provided to meet the wants of the community. One thousand dollars are needed for the purchase of reference books for the study room, and shelving should be provided to receive them. At least one hundred dollars a month are needed, in addition to the above sum, for new books for circulation. Although only a few hundred new and popular books are labeled "Seven day book," more than one-third of all the books circulated were of that class.

Only five volumes were discarded during the year. One book was lost because the borrower left town and could not be traced. No inventory has been taken because the accessioning and shelf-listing have not been completed. The library now has about eleven thousand volumes and the most of them are in good condition. Nine hundred and eight volumes were rebound during the year. Now that the worst books have been discarded and the books that needed it have been rebound, it is probable that the expense for rebinding will be small for a few years. If a reasonable amount could be spent for binding the more

important periodicals each year, a collection of reference material would accumulate that would be almost invaluable. The cost of binding would provide more information than could be bought in the form of books for the same money, and much of it could not be found in books in such popular form.

Twenty-nine thousand, four hundred and twenty-nine books were loaned, of which 88.61% were fiction. This proportion is very much too large. It is largely due to the fact that most of the new books were of that class, and of the old books only the fiction has been listed in the bulletins hitherto issued. Eighteen hundred and fifteen books were sent to Lakeport and 584 books to The Weirs. It cost nearly ten cents for transportation for every book sent to The Weirs and nearly three cents for every book sent to Lakeport; but very few books would be drawn by residents of either section if it was necessary to come to the library for them. As soon as the cataloguing can be completed and more books can be bought, it will be expedient to send boxes of books to the ungraded schools so books may be drawn without coming to the library. These collections can be changed from time to time. Many prefer to see the books rather than to make their selections from printed lists or a card catalogue. For this reason, new books are kept on the inspection shelves at the left of the desk, and good juvenile books at the right. The truck in the delivery room is always supplied with selected books. Special lots on some subject or appropriate to some holiday or anniversary are placed on a table in the entrance hall. Borrowers find these collections helpful in making their selections. It is to be regretted that so few persons apply for books from the State Library at Concord. The expense for transportation seldom exceeds thirty cents. Author lists of the books may be consulted at the library.

Five hundred and fifty persons registered during the year. Nearly sixteen hundred cards have now been

issued. Only ninety-four have applied for non-fiction cards enabling them to draw two books at a time. Two hundred and twenty-three books were loaned to teachers for school use. Some teachers make good use of the library, while others use it but little. The librarian regrets that he can not visit the schools and encourage teachers and pupils to use the library. He hopes to be able to do this as soon as the cataloguing is completed.

It is not practicable to count all who use the periodical room, but it seems certain that it is used much more than it was a year ago. More people sit down to read and they read longer. A much larger proportion of the readers come with an evident purpose to read certain articles or particular periodicals. The order is much better and the room is much quieter. More than half the chairs are frequently occupied at a time both in the afternoon and evening. The study room is used much more than it was. If the necessary books could be placed on open shelves in this room, it is probable that much serious study would be done here. A few teachers have brought their pupils to this room and helped them find books and information on topics connected with their school work. Other duties have prevented the librarian from doing much to encourage such visits.

As soon as possible, the larger room in the basement should be fitted up as a children's room with an attendant in charge, during at least a part of each day. Much could be done if money could be provided, to encourage the young people to read the best books. No attempt has been made to provide picture books for children who have not learned to read, but this should be done as soon as practicable. In many libraries, someone reads to the children at certain regular hours in the week. This cultivates a taste for the best in literature and brings the children into close touch with the library.

Two boys of six years of age, six boys and three girls of seven, six boys and ten girls of eight, twenty-five boys

and seventeen girls of nine have registered. Of this number, not one has been known seriously to injure a book and the library has lost nothing by granting full privileges to these little folk.

Early in the year, it was decided to keep the library open from twelve to two to accommodate out-of-town pupils at the High school. This proved so acceptable to the public that it has been continued. Hereafter the library will not be closed from six to seven, so it will be open to the public continuously from ten A. M. to nine P. M. Frequently people come to the library before ten and find it closed. It is desirable that the library should be open continuously from eight A. M. to ten P. M.

Library exhibits are becoming an interesting feature of many libraries. Two exhibitions of pictures have already been secured for Memorial hall. Doubtless many of our citizens would be willing to loan pictures or curios for such a purpose. If funds could be provided, it would be desirable to have lectures given in the hall on educational lines. Books on the topic of the lecture should be provided so that those interested could pursue the subject further.

All the books of fiction and nearly all the travel have now been accessioned and permanently catalogued. These constitute about half of all the books in the library. Much more would have been accomplished if an adequate salary could have been paid to secure and retain a trained cataloguer. Miss Crane and Miss Robinson accepted positions at Brooklyn at about double the salary we were paying them. Miss Foster tried the work but resigned before becoming proficient. Miss Scribner began cataloguing the first of August and has done nothing else. She had had no previous experience in library work, but she is now able to do good work with comparatively little assistance. It is very desirable that one person should do all the cataloguing, because a new cataloguer, however proficient, must learn what has already been done in a multitude of

details before she is able to continue the work successfully. Miss Wilkinson, who is taking the library course at Simmons college, did excellent work in the accession book during her summer vacation. Miss Phillips began serving at the loan desk in April and has given good satisfaction in that position. Miss Busiel has prepared an author list on cards of all the books in the stack room that have not been permanently catalogued.

Four bulletins were printed. The January and April numbers contained eight pages each and the July and October numbers sixteen pages. The January, 1905 number will complete the printed list of the books of fiction. The April issue will include all the old books of travel. The July number will list the biographies and the October number the histories. The first page of each issue is reserved for new books. The intention is to prepare the bulletins in such a manner that they may be bound in one volume containing an author list of all the books in the library. It will not be expedient to print any other form of catalogue, since it would be out of date as soon as issued because it could not include all the latest books and those are what most readers want. Those who desire a particular book can consult the card catalogue or an attendant.

Lists of new books in the local papers are much used by those who can not come to the library to select their books. The gratitude of the library and of the public is due to the publishers of the Laconia Democrat and of the News and Critic, and to the local correspondent and the publishers of the Manchester Union, because of their willingness to publish lists of books or items of interest without expense to the library. The librarian hopes to arrange for the publication of lists of best books for special classes or for references on questions of the day as soon as the cataloguing work becomes less urgent.

Almost as many volumes were donated as were purchased during the year. The valuable French and Italian

dictionaries and the standard works in those languages, presented by Mrs. Zebbley, were mentioned in the last report although they are included in the statistics of the past year. The most valuable gift was that of a very nearly complete set of the Laconia Democrat, substantially bound. It came to us that it might be safe from the risk of loss by fire. It certainly contains much information that could not be found elsewhere and is simply invaluable to anyone looking up the history of the city. This should suggest to others that this is the safest place for material of public interest that could not be duplicated in case of loss. If donated to the library, it is always available when wanted and at other times is safe from fire. Mr. E. P. Thompson has again shown his interest in the library by a large contribution of books that appeal to those whose memories go back to the time when they were current and to those delving in the records of the past.

I take this opportunity to express my gratitude to your Honorable Board for your kindness to me, and to the members of my staff for their cordial coöperation and support.

A record of gifts of books, pamphlets, and periodicals follows, and to each of the persons, firms, and institutions named the thanks of this library are hereby extended.

## REPORT OF BOARD OF EDUCATION.

---

*To the Citizens of Laconia:*

The members of the Board of Education have to begin their report by the frank confession of their inability to keep within their appropriation for the past year; it is evident, also, that \$23,000 cannot in the future be stretched so as to cover the absolutely necessary expenses of the schools. The largest item of increased expense lies in the coal bill; this has jumped from about \$1300 to \$2100 since the building of the Washington street and Batchelder street school houses. The furnaces of these large modern buildings consume, of course, much more coal than did the stoves of the old school-rooms, but this increase is due in part to the higher cost of fuel during the last two or three years.

The High school, also, is growing rapidly, and it is expected that, in addition to outside pupils, a class of more than seventy from our own ninth grades will enter the school this coming fall. This increase in numbers will necessitate engaging another teacher, and there must also be more desks provided. To gain the extra room needed it will be necessary probably to transfer the seventh grade from the High school building to the Batchelder street school house and to furnish another room in that building.

It is very gratifying to have the High school in so flourishing a condition, and the work of the school must not be allowed to grow poorer, as would inevitably be the case were the number of pupils to increase greatly without a

corresponding increase in the teaching force. Its standard must be maintained, not only for the sake of our own children, but also that the school may remain on the list of approved schools and continue to attract pupils from the neighboring towns. The income derived from these outside pupils is increasing yearly and is now about \$750; this has helped to eke out the regular appropriation, and yet the schools have overrun their account for the last two years. Every care has been taken in the use of supplies and nothing unnecessary has been bought; but, if we are to have any schools at all, the bills for teachers' salaries, for janitors, for school books and supplies, for fuel, and for transportation must be paid: when for these five items we have to expend more than \$22,400, it is easily seen how little is left for repairs and for the smaller items included under miscellaneous expenses. There are always during every year some extra bills,—more than usual is needed in the laboratory, a wall has to be built, a furnace has to be repaired. There was this year another unforeseen item of expense to swell the deficit. Under the present system of city accounts the Board of Education has nothing whatever to do with the insurance of the school buildings,—it does not even see the bills,—but the money to pay these bills is taken from the appropriation for the support of schools. This sum varies from year to year, and during the past year nearly \$500 has disappeared in this way. It would seem fairer either that the insurance of the school houses be classed under the city's miscellaneous expenses, or that the extra amount needed for this purpose be added each year to the regular school appropriation. The Board of Education has to strain every nerve in trying to make the two ends meet, and an unexpected loss of \$500 or even \$200 may, under these circumstances, make all the difference between solvency and insolvency.

The Board trusts that each citizen interested in the schools will read carefully the reports that follow and will

also study the financial report of the schools, and from these form his own opinion of the situation. Its own position may be summed up thus: Unless the appropriation is increased, there cannot be another teacher in the High school; if there is not another teacher, the work deteriorates, the school loses the reputation it has earned and its outside pupils, and with them the money that they bring, —and then the appropriation must be increased to meet this loss, or it will be impossible to maintain the schools except with greatly diminished efficiency.

## SUPERINTENDENT'S REPORT.

### *To the Board of Education:*

This constitutes the sixteenth annual school report and the eighth in the series under the present supervision, together with the several reports of supervisors of music, of drawing and truant officer.

The annual appropriation of \$23,000 was set apart for the use of the schools through the wisdom of the city council and the honorable mayor, which in itself makes a successful beginning towards a prosperous year followed later by a careful choice on your part of a corps of teachers of well known worth and experience. But notwithstanding your endeavor to maintain a permanency in the teaching force a few changes have taken place in their number which is shown below.

### RESIGNED.

Florence E. Puffer.  
Grace L. Wiggin.  
Mrs. E. H. Blackler.  
Mary G. Hall.  
Bessie B. Sargent.  
Alice M. Stratton.  
Mrs. H. L. Durgin.  
Susie R. Ham.

### LEAVE OF ABSENCE.

Blanche Weymouth.

### TRANSFERRED.

Lulu J. Hart, from Grades III and IV, Gilford avenue, to Grades VII and VIII, Mechanic street.

Evelyn G. Tucker, from Grades V and VI, Mechanic street, to Grades I and II in the same building.

#### LEAVE OF ABSENCE EXPIRED.

Mrs. M. E. Cook, Batchelder street, Grade VI.

Mabelle M. Lang, Academy street, Grade VII.

#### NEW TEACHERS ELECTED.

Mary A. Wight, Gilford avenue, Grades III and IV.

Katherine McLaughlin, Harvard street, Grades VII and VIII.

Louise Emery, Harvard street, Grades III and IV.

Alice P. Sargent, Harvard street, Grades I and II.

Cora I. Sargent, Mechanic street, Grades V and VI.

Evangeline Harriman, Washington street, Grade IX.

Rosetta Burke, Washington street, Grades V and VI.

Clara A. Southwick, Washington street, Grades I and II.

Mrs. Isa M. Severance, Oaks school reopened.

Misses Emery and Burke had substituted for Mrs. Durgin and Mrs. Cook respectively and had proved themselves able and competent teachers and were regularly elected by your Board. The remaining new teachers were secured by a committee chosen for that purpose and the results of their choice have been very satisfactory.

It was found during the summer vacation that the furnaces at Gilford avenue needed repairs and they were put into proper condition. Eighteen new desks were purchased for the High school and some money was expended upon the grounds at Bowman street school to prevent washing upon adjoining property. This constituted the expenditure for any very large amounts.

There has been some considerable outlay in further equipping the chemical laboratory in the High school as well as four hundred and sixty-five dollars for insurance paid during the year, all of which has tended to keep us behind hand in our finances. The salary list, including the truant officer, is somewhat larger this year than last,

containing as it does a full year's pay to the latter officer. The cost of transportation will be a little less than last year, though for the same reason it makes the salary list somewhat larger on account of starting the school at the Oaks again. The bill for fuel which has all been paid amounts to \$2100 or about \$800 more than the average amount for fuel for the past eight years; at least half of this increase can be accounted for in the extra expense in heating the two new buildings.

The school work for the year has been satisfactory. The teachers have labored conscientiously and with diligence and not till during the past fall term has there been any particular reason to complain. Scarlet fever has been prevalent now for several months. While the number of cases has been comparatively few and those of a mild type, its presence has caused a falling off in attendance besides being a source of annoyance to parents and teachers alike. It has not been confined to any particular school in the city, nor has it seemed in more than a few cases to come from the schools at all. Three of the buildings have been fumigated twice each and care has been taken that the school houses and families affected with the disease should not become in any way a source of danger to the community.

There has been a considerable loss in the number of pupils in attendance this year in the first six grades which is no doubt due to an attendance upon the parochial school on Beacon street. The attendance in the grammar schools is larger by 22 than last year and the number of pupils in the High school is nearly the largest in its history and will by another year outstrip any previous record in numbers by 25 pupils.

The High school, under Principal Butterfield and his competent assistants, is entering upon a period of unusual prosperity. It has the complete confidence of the public both in our own city and the adjoining towns. It ranks high as a fitting school for college, as is attested by its

position upon the approved list of the New England College Certificate Board. This carries with it the greatest weight and raises it beyond the carping criticism of any self-appointed faultfinder whose knowledge of its work is practically nothing. Because it is a good fitting school for college it does not make it any the less valuable as a school for the young man or woman who will finish school work at graduation here. The course of study is kept constantly alive by growth and adjustment to the need of the pupils who are to go no further, while the college requirements are bound to take care of themselves. A course in elementary physics is now offered during the freshmen year and one which I believe will become more popular as its value is better understood.

The greatest problem for your board to solve during the immediate future is that of furnishing more room for the High school. Not only that, but another teacher must be regularly employed. As Mr. Butterfield's report states, the number of teaching periods has been increased from six to seven each day and there will still be more classes another year to be accommodated and taught. The school year should be increased in length by at least two if not four weeks. If we fail to provide enough teachers per pupil or have too short a school year the New England College Certificate Board will look with distrust upon our school which no amount of skill by our resident teachers can allay, as there must be a certain amount of quantity as well as quality to win their approval.

While I can commend the work of the High school it must not be forgotten that a large measure of its efficiency is due to the teachers of the grades immediately below it for their careful and painstaking work in preparing their pupils to properly meet the duties which will confront them there. There is a well-defined sentiment among the pupils in the eighth and ninth grades that they are to go on into the High school. This feeling has been growing for some time and has become a force of great value in the school life of the city.

In closing, I wish to thank the teachers in all the grades, the special teachers, and Officer Rowen for their steadfast purpose in the pursuit of their duties. Whatsoever progress has been made and good resulted, the greater part of the credit belongs to them.

Respectfully submitted,

J. H. BLAISDELL,

*Superintendent.*

## REPORT OF PRINCIPAL OF HIGH SCHOOL.

---

*Mr. J. H. Blaisdell, Superintendent of Schools,*

SIR:—I submit herewith my third annual report as Principal of the Laconia High school.

You are thoroughly acquainted with the present healthy condition of the school and after we have given due credit to pupils and parents and expressed our appreciation of the faithful and able work of the teachers associated with me, we must assert that the growth and development of the High school is largely due to your professional advice and expert supervision. I believe that Laconia has good reason to be proud of the system of public schools which you have built up and maintained, and that the High school is worthy of its place at the head of the city schools.

Your attention is called to the following figures which attest to the vigorous growth of the High school in the last three years. I have taken this time, not because it corresponds to the length of my service here, but because for this period the figures are available.

The school has increased in numbers 27%, and this increase is not due to larger entering classes but to the fact that less pupils drop out of school. Especially we are gaining in boys. Their gain has been 37% against 22% for the girls. The number of pupils from the towns around Laconia has increased 56%, and from them the city will receive this year in tuition the sum of \$700. The gain in the number of our graduates in the colleges has been 66% and all are doing creditable work. On the other hand the amount paid the teachers will be just the same this year that it was three years ago, and the cost of books and school supplies will be practically the same. Thirty-

six new desks have been added, the chemical laboratory has been enlarged and improved and a moderate number of books has been bought until now in text books and books of reference we number 4000 volumes.

The citizens have just cause for pride that their High school won the approbation of the New England College Certificate Board and has kept its position upon the approved list. Professional courtesy prevents me from showing how signal this honor is by naming the schools around us which are not upon this list.

A new course of study based upon the elective principle was adopted last summer. This permits greater freedom in allowing the Principal, after consultation with the pupil and his parents, to fit the course to the individual needs of the pupil. The change is a distinct educational advance, but even this course must not be looked on as final. The present is a time of transition in the world of education and the High school must be ready to train for the complexities of modern life.

In my report of a year ago I stated the need of a longer High school year and later brought the matter to the attention of the Board of Education. I will not repeat my argument of last year, but the need of such a change is even more imperative now than it was a year ago. The growth of the school brings its problems. Divisions of classes are called for that were not needed before. The High school teachers are working to the limit of possibility. This year we have been obliged to divide the day into seven recitation periods instead of six as in former years. This means a shorter recitation and less opportunity for thoroughness. The question of the necessity of an additional teacher next year must be met. It may be wise not to hire a special commercial teacher who devotes but a part of her time to the school, but to engage a regular teacher for commercial and other branches.

During the last three years additional desks have been procured each year to meet the growth of the school, but

now the rooms are filled. If next fall the same proportion of the ninth grades enters the High school, and the same proportion of the High school pupils return as has been the case in the last three years we may expect a High school numbering 170. We have in all 149 desks. It is evident that the problem of more room for the High school must now be solved.

The walls of several of our rooms are dingy and unattractive. Calcimine is greatly needed. The drinking water flows from pipes so badly rusted that it is unwholesome and the *unsanitary* arrangements in the basements are a menace to health and morals.

Any of these changes, if made, will call for a larger High school appropriation, but I believe that the growth and condition of the school is such that it deserves an increased outlay.

Respectfully submitted,

E. W. BUTTERFIELD,

*Principal of the High School.*

Laconia, N. H., January 28, 1905.

## REPORT OF MUSIC TEACHER.

*Mr. J. H. Blaisdell, Superintendent of Schools:—*

In submitting my annual report, there is little to say that has not already been said.

The work is being carried on along the same lines as were laid down when I took charge of the work. More individual work is being done in the lower grades this year than ever before.

The High school chorus is working at present on the cantata "The Building of the Ship," by Henry Lahee. It is a composition of much merit, for four soloists and chorus. Local singers have kindly consented to sing the solo parts and I expect the chorus to give a good account of itself. We shall hope to see you at the High school hall when we give it.

I desire to thank all regular teachers and school officials for their kind coöperation. My program follows, and you are invited to visit us any time.

Respectfully submitted,

FRED H. OSGOOD.

## REPORT OF DRAWING TEACHER.

---

*Mr. J. H. Blaisdell, Superintendent of Schools:*

The greatest change in drawing this year was caused by the introduction of the new course of study into the High school. Drawing is now an elective subject. Each pupil selecting drawing devotes two periods a week to it, while formerly only one period would be given. For some reasons this seems a change for the better.

We have tried for the first time, and with pleasing results, painting with water color the finished charcoal drawing.

A room with furnishings for drawing is much needed in the High school. The exhibition last June showed that we are still making advancement in this line of the school work.

I wish to thank the teachers for their coöperation and the superintendent for counsel and aid.

Respectfully submitted,

LUCY N. NELSON.

## REPORT OF TRUANT OFFICER.

*To J. H. Blaisdell, Superintendent of Schools:*

Following is the report of the truant officer from Feb. 12, 1904, to Jan. 18, 1905:

Resident school children in the city between five  
and sixteen years . . . . . 1,420  
Net gain of 52 over last year.

	Boys.	Girls.	Total.
Ward 1 . . . . .	62	55	117
Ward 2 . . . . .	144	148	292
Ward 3 . . . . .	69	58	127
Ward 4 . . . . .	140	152	292
Ward 5 . . . . .	146	135	281
Ward 6 . . . . .	144	167	311
	<hr/>	<hr/>	<hr/>
	705	715	1,420

Number of visits to schools . . . . . 929  
Number of absences investigated . . . . . 496  
Number found employed contrary to the law . . . 11

Besides tending to my duty as truant officer, I have collected quite a lot of clothing and distributed among the poor children. Through the kindness of Mrs. Mayor Melcher, the manufacturers, and the entertainment given by the Lakeport schools, I have been able to supply large numbers of children with stockings, shoes and rubbers, who would not otherwise have been able to attend school.

H. E. ROWEN,  
*Truant Officer.*

## REPORT OF BOARD OF PUBLIC WORKS.

---

*To the Honorable Mayor and Council:*

The Board of Public Works submits herewith its fourth annual report, with an inventory of all the property in its possession belonging to the city and accounts in detail of the receipts and expenditures, in each department under its control.

The special appropriations for the paving of Mill, Elm and Water streets were expended and we believe the results will be highly satisfactory to the public. In addition to the above, Somes court was concreted its entire length and the cost, except removing the grade and furnishing the stone, was paid by Mr. William Esty. It is the desire of the Board to complete the paving of Elm street to the bridge and of Water street to the railroad crossing, during the coming summer, if the council will provide means for so doing.

The work of reconstructing the streets and sidewalks in Ward 6 should be continued and a special appropriation to carry on this work will be asked for.

If the city council could make some arrangement with the Laconia Car Co. Works to bring about the construction of a permanent canal across Main street, it would remove a source of danger to the public and enable this Board to take up the matter of making improvements on this part of our main thoroughfare. In a short time the Elm street bridge in Ward 6 will have to be rebuilt and the question will arise as to the best policy to pursue, whether the city should continue to build wooden bridges,

with their continual heavy expense for maintenance or build in a modern manner at a larger initial cost, and save the perpetual tax for repairs. The several departments are in a satisfactory condition and each of the general appropriations will show an unexpended balance.

We again call the attention of the council to the necessity of making a liberal appropriation for the maintenance of concrete sidewalks; many of the walks are now in such condition that it is absolutely necessary that they should be recovered or the foundations will soon be destroyed and the walk lost.

J. H. STORY,  
JULIUS E. WILSON,  
JACOB SANBORN,

*Board of Public Works.*

## REPORT OF STREET COMMISSIONER.

### *To the Board of Public Works:*

The following is submitted as the report of the street department, for the year ending Feb. 15, 1905.

All the work laid out by the Board has been finished, with the exception of the removal of the ledge on North Main street, near Busiel street, which was only about half completed when work was stopped by the weather.

Mill street, from Main street to Beacon street, has been paved with tar concrete on a cement concrete foundation. In carrying out this work it was necessary to practically rebuild this part of the street. The work in detail consisted of constructing new street drain and three catch-basins, removing 188 yds. of grade, setting 281 ft. of new granite curb, re-setting 28 ft. of old curb, paving 182 yds. of gutters, relaying 85 yds. of block paving, 190 yds. of concrete sidewalks and crossings and 588 yds. of tar concrete pavement. Cost of work \$1,588.68.

Elm street, from the railroad crossing to Park street, has been paved with tar concrete in the same manner as Mill street and the work was carried out under about the same conditions as existed on Mill street: it consisted of rebuilding the street drain and four catch-basins and building two new catch-basins, removing 332 yds. of grade, setting 463 ft. of new granite curb, resetting 173 ft. of old curb, paving 239 yds. of gutters, 561 yds. of concrete sidewalks and crossings and 1,015 yds. of tar concrete pavement. Cost \$2,653.42.

This department constructed the street drains and catch-basins and furnished the new curbing for the above

described work, the remainder of the work was let by contract to L. M. Pike & Son, who completed it in a very satisfactory manner, and while as you are aware, I do not have much faith in tar concrete as a material for street pavements, it does seem that this wearing surface, containing about 12 per cent. of asphalt, ought to prove fairly satisfactory.

About 300 ft. in length of the easterly end of Water street has been regulated and paved with granite blocks set on a foundation of six inches of cement concrete. This work consisted of rebuilding the street drain, building four new catch-basins, removing 307 yds. of grade, setting 520 ft. of new granite curb, 424 yds. of concrete sidewalks and 648 yds. of block paving. The larger part of this work was done by this department and while I know that the work was carried out as economically as was possible under the circumstances, I am sure, that with sufficient money to have paved half the street or more, the unit cost of the work could have been very largely reduced. The cost of this work was \$3,102.01.

The work on the soldiers' monument lot was finished early in the year, and I am sorry to be obliged to report that the cost, \$429.01, exceeds the appropriation to the amount of \$29.01. This amount, as well as the amount expended on the paving in excess of the appropriations, has been taken care of by a transfer of \$2,373.12 from the appropriation for highways and bridges, as you directed.

Deducting the above amount, together with the sum received for work and material furnished for other accounts and individuals, from the total expenditures charged to the appropriation for highways and bridges, leaves \$13,705.01, the amount actually expended on the work covered by that appropriation, which is itemized as follows:

General repairs . . . . .	\$ 4,600.17
Lakeport fire district . . . . .	2,064.09
Lakeview avenue (new street) . . . . .	56.23

Messer street, regulating south end . . . . .	\$ 316.21
Somes court . . . . .	137.83
Main street at D. K. Marsh's . . . . .	43.02
"    "    Unitarian church . . . . .	211.46
Scavenger service . . . . .	754.65
Cleaning streets . . . . .	551.37
"    catch-basins . . . . .	147.87
Care of soldiers' monument lot . . . . .	44.05
Labor and supplies at stone crusher . . . . .	519.17
Trimming shade trees for tree warden . . . . .	353.45
Moving city offices . . . . .	8.36
"    band stand . . . . .	2.36
Winter expenses . . . . .	3,412.05
Horses purchased . . . . .	400.00
Curbing and sewer pipe purchased and not used . . . . .	82.68
	<hr/>
	\$13,705.01

Referring to the expense at the stone crusher as shown in the above statement, I wish to add that the department has received \$542.68 for crushed stone during the year, and this amount is included in the actual expenses of the department as stated above, it being impossible to divide it as a large part of the stone was hauled to the crusher last year, as noted in the last report.

The expenses of the department, during the last three months of the year, have been very much less than the average for former years, which accounts for the unexpended balance, \$1,229.79, shown by your financial report.

So far as I know every bill contracted by the department during the year has been paid. There are bills due the department amounting to \$41.78.

Respectfully submitted,

F. G. BERRY,

*Street Commissioner.*

REPORT OF SUPERINTENDENT OF SEWERS.

*To the Board of Public Works:*

The fourteenth annual report of this department, for the year ending Feb. 15, 1905, is herewith submitted.

There has been one stoppage in the sewerage system during the year. This occurred early in the year, in a six-inch sewer that has a grade of one foot in 400 feet and at a point where the pipe is less than three feet under ground and was caused by the pipe filling with ice. There have been several other stoppages reported but in every case the trouble has been located in the house connection. With these exceptions there has been nothing but the regular work of the department during the year.

The Webster street sewer that I reported last year has not been repaired although you directed that the work should be done. The only excuse that I have to offer is the pressure of other business and the fact that it is still working all right. I will endeavor to have this work done the first thing in the spring.

The Depot street sewer has been built as ordered except that we were unable to go under the surface drain, opposite the depot, on account of grade and for that reason stopped some distance short of the point to which it was intended that it should go. This will account for the fact that the cost was considerably less than the estimate.

House connections reported Feb. 15, 1904 . . . . .	853
"          "          made during the year . . . . .	32
Whole number Feb. 15, 1905 . . . . .	885

## REPORT OF CITY ENGINEER.

---

*To the Board of Public Works :*

The twelfth annual report of this department, for the year ending Feb. 15, 1905, is herewith submitted.

The appropriation for this department has been sufficient to pay almost half of the bills for the year, the balance I have been obliged to charge to the account of other appropriations covering the work done, all of which charges appear in your financial report. I have endeavored to keep the expense of this department as low as possible and think that if you will take into consideration the amount of construction work done, as shown by the report of the street department, in addition to the regular work of the office and several surveys made by order of the city council, for new street and sewer work, you will find that the percentage for engineering expenses is very small.

With the exception of the survey and plans for the widening and straightening of Belvidere street, no work has been done on the re-location of the street lines in the burnt district. This work seems to me to be very important and I should be very glad to see it completed, but for obvious reasons did not feel justified in going ahead with it this year. There is work of this same character in other sections of the city that I have been requested to do by the property owners, but while I believed that it ought to be done I was obliged to put them off.

This is a brief statement of the condition of this department and is respectfully submitted for your consideration.

F. G. BERRY,

*City Engineer.*

# FIRE DEPARTMENT.

---

## REPORT OF THE CHIEF ENGINEER.

---

### *To the City Council:*

I herewith submit the twelfth annual report of the department for the year ending Feb. 15, 1905.

There have been 25 box alarms, and 36 still alarms during the year.

Feb. 18, box 67, Mrs. L. Lamprey's house, Academy street. Damage to house and contents, \$106.00; covered by insurance.

March 15, box 56, Burt Sanborn's house, Highland street; no damage.

March 24, box 57, Joseph Plumer's house, Avery street. Damage, \$46; covered by insurance.

March 25, still alarm, Edwards' estate, Pine street. Damage, \$100; covered by insurance.

March 30, box 54, Rufus Emery's house, Winter street. Damage, \$400; insured.

April 5, box 48, grass fire, Oak street; no damage.

June 11, box 54, brush fire, Jewett lot, Winter street; no damage.

June 14, box 28, Albert Sanborn house, Water street. Damage to contents, \$8; no insurance.

June 17, Weirs, G. W. Weeks' store. Damage to building and contents, \$75; covered by insurance.

July 6, box 26, City stable, Water street, Damage, building and contents, \$15; no insurance.

July 7, box 73, Mrs. Annie Rowen's house. Damage on house and barn, \$458; covered by insurance.

July 8, box 73, Mrs. Annie Rowen, ruins; no damage.

July 17, box 25, J. W. Follett. Damage to building and stock, \$400.10. Damage, to A. D. Thurston, stock, \$118; covered by insurance.

July 31, box 68, Cook's house, Fair street. Damage to building, \$15; no insurance.

Sept. 7, box 28, Lougee-Robinson storehouse. Damage to building, \$4,000; insurance paid, \$2,500. Damage to contents, \$1,250; covered by insurance.

Oct. 2, box 76, G. H. Smith's house; no damage.

Oct. 9, box 25, Elsam's block, Main street. Damage to building and contents, \$505; covered by insurance. Mertie Greenwood Leavitt. Damage to contents, \$175; covered by insurance.

Nov. 12, box 27, Pitman's mill; no damage.

Nov. 14, box 57, Pitman's mill; no damage.

Nov. 14, box 26, N. H. School for Feeble Minded Children. Damage on building and stock, \$20,000; with \$6,000 insurance.

Nov. 28, still alarm, fire at car shop. Damage to building and content, \$266.49; covered by insurance.

Dec. 3, box 54, Rev. Father Monge, parsonage. Damage to building and contents, \$700.88; covered by insurance.

Dec. 24, box 28, Cate's house, Charles street; no damage.

Dec. 31, box 43, George Mayo, house, Pleasant street. Damage on house and contents, \$500.82; covered by insurance,

Jan. 29, 1905, box 76, Lance Lamprey's house; no damage.

Feb. 4, box 27, Tilton's mill. Damage to building and stock, \$580; covered by insurance.

## MANUAL FORCE.

The total manual force is as follows:

Chief engineer . . . . .	1
Assistants . . . . .	4

## RECOMMENDATIONS.

I would make the following recommendations:

First, that the city purchase 1,000 feet of new hose.

Second, that the steam fire engine and hose reel be painted.

Third, that a fire alarm box and hydrant be placed on Baldwin street.

I wish to express my sincere thanks to my assistant engineers, officers and men of the department, the police and street departments, as well as the city officials, for their uniform courtesy and assistance rendered me.

Respectfully submitted,

ALBERT GRIFFIN,

*Chief Engineer.*

## CITY SOLICITOR'S REPORT.

---

*To the City Council:*

I have the honor to submit my report as city solicitor. As suggested in my last report, many matters have engaged the attention of the city law department during the year that has passed.

The suit of Stephen K. Lyford against the city, involving a claim for damages for the North church lot is still upon the docket, and no trial has yet been had.

In the suit of Thomas F. Carroll for alleged damages to his land located on Davis Place, a hearing has been had before the county commissioners and an award was made against the city of seventy-one dollars and sixty-seven cents, (\$71.67) from which award an appeal has been taken which is likely to be tried before the jury at the March term of court.

In the Lake Company Tax cases which are in the supreme court, a case has been drawn and an order for briefs has been made and the cases are likely to be reached for argument this spring.

In the matter of the revision of the city ordinances, some progress has been made, but the revision will not be completed for some time, as it involves a great deal of painstaking labor.

Many important matters have received consideration involving the rights of the city relating to contracts of various kinds, but which do not require particular mention in this report.

To His Honor, the Mayor, the members of the city council and other city officers, I extend my thanks for courtesies extended during the year.

STEPHEN S. JEWETT,

*City Solicitor.*

# POLICE DEPARTMENT.

---

## REPORT OF THE POLICE COMMISSIONERS.

---

*To the City Council:*

We respectfully present herewith the annual report of the city marshal for the year ending February 15, 1905.

The commissioners recommend that the appropriation for the police department for the ensuing year be \$4,500, the same as last year.

FRANK E. BUSIEL,  
FRED C. SANBORN,  
CHARLES W. VAUGHAN.

H. K. W. SCOTT,  
*City Marshal.*

---

## REPORT OF CLERK OF POLICE COURT.

---

*To the City Council:*

I have the honor to submit my report as clerk of the police court.

Of the cash receipts and the disposal of the criminal cases brought before this court, the city marshal gives a detailed account.

Cash received for entry of civil cases, twenty dollars, for which I hold receipt of city treasurer.

Respectfully submitted,

MARTIN B. PLUMMER,  
*Clerk of Police Court.*

## OVERSEERS OF POOR.

---

*To the City Council:*

The number of calls during the past year by those almost without means of self-help has been more numerous than for a number of years, consequently the amount paid out for each person has been larger than usual.

Two-fifths of the amount appropriated for the support of the poor has been used for the maintenance of two inmates of the Belknap county farm, for whose entire support this department is responsible. The amount paid out for those in need of temporary aid only, has been trifling.

Judging by the present needs of this department, we consider seven hundred dollars a sufficient amount to be appropriated for the support of the poor for the coming year.

Respectfully submitted,

ARTHUR TUCKER,

A. C. S. RANDLETT,

*Overseers of Poor.*

# BOARD OF HEALTH.

*To the City Council:*

We herewith submit our report for the year ending Dec. 31, 1904. Complaints made to and investigated by the Board of Health, 104.

The following cases of contagious diseases were reported: Typhoid fever, 6; diphtheria, 2; scarlet fever, 67; measles, 2; smallpox, 1.

It will be noticed that the cause of expense last year was smallpox, while this year it is scarlet fever.

The scarlet fever cases have been very mild, with a few exceptions; some of the cases among the children were not recognized, and not severe enough to employ doctors; and after being sick a few days were sent to school.

The school houses have been fumigated to please the parents; but the Board of Health judgment is, that the spread of the disease is due to contact of clothing rather than germs in the buildings.

Scarlet fever has been prevalent and epidemic in New Hampshire, and in fact throughout New England, this past year.

We have at last a quarantine hospital, situated at the lower end of Garfield street. This seems to be an ideal place for our purpose, and will be used for scarlet fever as well as smallpox cases which need the help of the city.

These cases will be taken care of by trained nurses very much better and cheaper, and the quarantine or isolation would be complete.

The plan of the Board of Health is to let the lower part of this house to a man and wife who will be required to stay during the whole time, to board the nurses, and other ways assist. The whole upper part will be fitted for the hospital.

Respectfully submitted,

D. L. DAVIS,

FRED MOORE,

W. H. TRUE, Sec.,

*Board of Health.*

# LACONIA HOSPITAL ASSOCIATION.

## REPORT OF TREASURER.

John W. Ashman, treasurer, in account with the Laconia Hospital Association, for the year ending December 31, 1904.

	<hr/>
	\$183,475.87

Respectfully submitted,

A. W. DINSMOOR,

*Treasurer.*

## REPORT OF COMMITTEE ON FINANCE.

*To the Council:*

Your finance committee herewith present a statement of the city's receipts and expenditures for the year ending February 15, 1905, showing in detail the appropriations and disbursements of each department, together with the transfer account showing a gain of \$2,187.80 for the year.

We also submit a schedule of all the property, real and personal, belonging to the city and the value thereof, and a statement of city's financial condition.

We have examined and audited the book and accounts of the city treasurer and the city clerk, and find them correct, properly vouched and agreeing each with the other.

We have also examined all bonds, notes and securities belonging to the city in the treasurer's hands, and find them agreeing with the report herewith. We have destroyed all bonds, coupons and notes which have been paid during the year and filed a detailed schedule of the same with the city clerk.

We have examined the books and accounts of the tax collector, and find them correct and agreeing with his report herewith submitted.

The accounts of the several departments except those of the Board of Public Works and the Library Trustees are examined and audited monthly by the committee on accounts and claims, and the record thereof as kept by the city clerk, is correct and agrees with the statement herewith.

We have examined and audited the books and accounts of the treasurer of the Board of Public Works, and of the Public Library and find them correctly cast, and properly vouched, and agreeing with their respective reports.

The financial affairs of the several departments appear to be economically and honestly managed.

In the preparation of this report we have availed ourselves of the valuable aid and suggestions of our fellow citizen, A. C. Moore, a well-known accountant and book-keeper.

W. L. MELCHER,

ALFRED C. WYATT,

S. B. COLE,

*Committee on Finance.*

# CITY EXPENSES

FOR THE YEAR ENDING FEBRUARY 15, 1905.

Being an itemized account made up from the books of the city clerk, of the payments made by the city treasurer on account of running expenses.
